- e.g. subsidies for ESCO's (Spain), energy audits public buildings. The in-depth session about funding is very interesting (case of Latvia refurbishment of apartments/flats with cohesion fund and Jessica.

What methods do you use (meetings, email, presentations, etc)?

- Inform direct colleagues via e-mail in detail, so they will be able to answer questions coming from Ministries/stakeholders.

Are you aware of the NCP toolkit on the website?

- not aware of the toolkit.

**Q8.** What is your feedback regarding the new in-depth topic and sessions? How was your experience in trying to identify your expert(s) to attend these sessions?

- Very interesting topic to decrease financial barriers. The expert could not come because more involved on a broader context and implementing, not in the area of strategy / designing policy/grand subsidies but Mojca attended instead.

**Q9.** Do you have any other remarks, comments or feedback you would like to give us on specific or general elements of the CA ESD?

- good organisation, twice a year is good, good forum to discuss and is very useful for the transposition of the EED, broaden scope with the new CT's.

**Q10.** What suggestions do you have for the CA EED?

- Concrete examples of how countries do transpose and implement the EED.
