Hungarian legal framework

01.01.2012.:

- new public procurement Act

- System of decrees:

- **GPP**
- Join procurement
- Publication of the tenders

...

GPP decree

- Ministry of National Development
- Ministry of Rural Development
- Hungarian Public Procurement Institute

The GPP decree is being prepared.

Main obstacles to energy efficient and green PP are:

The lack of

- information
- skills and knowledges
- short term of the contracts
- financial sources

The GPP supporting provisions of the decree

- personal scope: obligatory and voluntary apply
- required GPP policy at the contracting authorities

priority Products

- technical specifications
- suitability criteria
- contracting terms and conditions
- awards criterias

Energy efficiency

- priority Products (office equipments, street lighting, mobile phones, public works, etc.)
- ESCO-contracting

Active best practices

- energy efficiency in traditional PPP:
Szabadság Bridge, traffic lighting in
Budapest
- ESCO-contracting through PPP
